

CLX-06/A Adaptor Plate CIR-2320 Dish Feed

This adaptor plate is used to mount the CIR-2320 Dish feed into the CLX-05 Dish feed Bracket.

It is now easy to switch over from dish feed without disassemble the Dish feed mounting construction.

If your CLX-05 is not drilled....hole drilling dimensions of the CLX-06/A are shown down below. The CLX-06/A is supplied pre-drilled incl. rifling M6x1mm. Mounting screws are supplied. (Holes to drill in the CLX-05 are round 7mm)

Specifications:

- Weight: 1010 Gram (incl mounting hardware)
- Dimensions: 195*195mm (raw outer dimension)
- Material: Aluminum CNC precision milled
- Mounting hardware: Stainless Steel
- Threaded holes M6

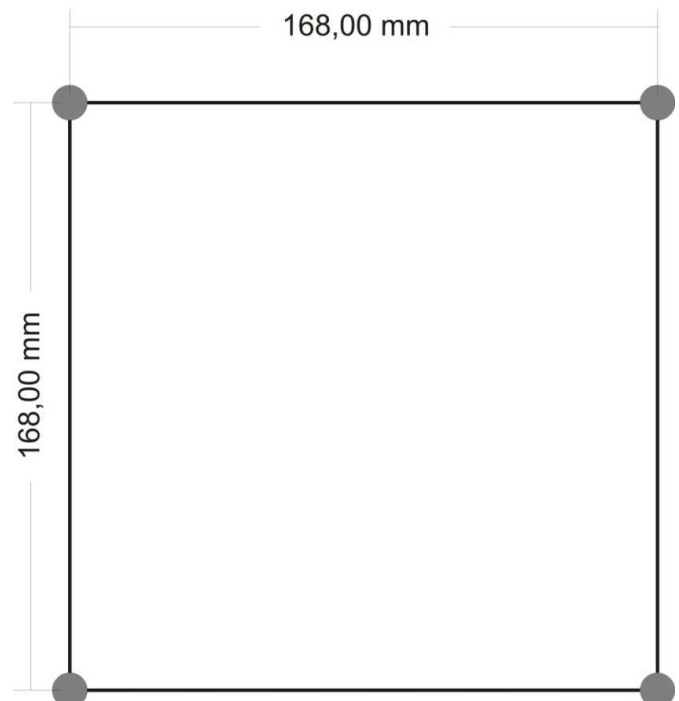

Note:

We recommend to add some Vaseline lubricant which is free from resin and acid to the M6 bolts before assembling. This will prevent trapped bolts.

Use for example:
SATA High Performance Grease
